

STATegics' Program in Traumatic Brain Injury Highlighted by Congressionally Directed Medical Research Programs (CDMRP)

STATegics, Inc. today announced that its program in traumatic brain injury (TBI), funded in part by the Department of Defense Psychological Health/Traumatic Brain Injury (PH/TBI) Research Program, is being highlighted on the Congressionally Directed Medical Research Programs (CDMRP) website. The program is focused on advancing the company's small molecules targeting the tissue-protective erythropoietin (EPO) receptor for the treatment of TBI. A link to the video is available at http://cdmrp.army.mil/pubs/video/phtbi/punnonen_video.shtml . For further information regarding the program, please contact the Company at information@stategics.com.
